## NIGHT VISION COMPATIBLE L-864 LED OBSTRUCTION LIGHT

**Compliant to:** FAA AC 150/5345-43F  
ICAO Annex 14  
Canadian CAR 621.19  
MIL-C-7989

### Application:

Farlight's NV-Series LED obstruction lights combine the cost-saving benefits of LEDs with advanced technology to ensure reliable operation in all environments. The NV-L864LED is the smallest, lightest, and most efficient medium-intensity flashing red obstruction light on the market. On top of that, it is compatible with NVG and NVIS systems, making it the first true LED replacement for incandescent obstruction beacons.

### FEATURES

- Direct replacement for existing 300mm incandescent light
- <10-watts power consumption (average)
- Night Vision Goggle & NVIS Compatible
- Advanced Lightning Protection
- Smallest L-864 beacon on the market (10.625" D x 10.5" H)
- Lightest L-864 beacon on the market (18-pounds)
- 24/48 VDC model available for solar or wind applications
- GPS synchronization and integrated monitoring available
- Can be operated in flashing or steady-burning mode (with external controller)
- Mounts to existing bolt pattern
- Operates from -55°C to +55°C
- No regular maintenance
- 5 year warranty

### ORDERING INFORMATION

ITEM	FARLIGHT PART NUMBER	PART DESCRIPTION
1	NV-L864LED-120A	Complete Assy., 120-240 VAC
2	NV-L864LED-48D	Complete Assy., 24/48 VDC
3	Add suffix GPS to 120A or 48D	GPS Synchronization Kit
4	Add suffix AK to 120A or 48D	Arctic Kit

### SHIPPING INFORMATION

PART NUMBER	APPROX. SHIP WEIGHT	CARTON DIMENSIONS
NV-L864LED (all models)	21 lbs (9.5 kg)	17" x 17" x 17"
